QUEEN PLANTS AN OAK

Celebration of Victoria's Eightieth Birthday at Windsor.

MESSAGE FROM PRESIDENT.

Her Majesty and Members of the Royal Family Including Her Grandchildren Participate in the Amusements.

London, May 24.—Torrents of rain ushered in Queen Victoria's eightieth birthday.

At Windsor, where a general holiday was observed, the town was decorated with flags and the church bells were rung at 11 a. m. The weather cleared about 11 a. m. and a serenade by the Windsor and Eton amateur choral societies was given in the grand quadrangle at Windsor castle.

The serenade was listened to by the queen and the members of the royal family, including the children of the Duke and Duchess of Saxe-Coburg and Gotha, the Duke and Duchess of Connaught, Prince and Princess Christian and Princess Henry of Battenburg.

Sir Walter Parratt, master of the queen's music and private organist to the queen, wearing his official robes, conducted the serenade from the steps of the Queen's private entrance to the palace, just below the oak room, where the queen was breakfasting.

The Eton College volunteer cadets marched into the castle grounds, headed by a band of music, and took up a position in the rear of the choir. Behind the cadets were drawn up the rest of the Eton boys and the Military Knights of Windsor. The mayor and officials of Windsor, in their full robes of office, and the borough magistrates were also present.

The scene was extremely picturesque. They all sang the national anthem, and then the choir gave the program, comprising the late bishop of Wakefield's jubilee hymn, a four-part song, and two specially written madrigals, "To the Queen."

Finally the Eton boys gave three lusty cheers in honor of her majesty, and the Duke of Connaught came to the windows and thanked those present in behalf of the queen, who herself, looking to be in excellent health, came forward and bowed repeatedly.

Sir Walter Parratt and the mayor of Windsor were then introduced to the queen and handed her a beautiful harp. Her majesty afterwards knighted the mayor, J. T. Soundry.

Although the official birthday celebrations in London were postponed until June 3, all public buildings, many business houses and a great many private residences are decorated. In fact, many flags were flying than at any time since the queen's jubilee.

A congregation met at St. Paul cathedral, where thanksgiving services were held and huge crowds of people, who were unable to obtain admittance, gazed themselves in the spaces about the building. The lord mayor of London, Sir John Voce Moore; the sheriffs, the aldermen, sword and mace-bearers and all the other functionaries, in their robes of state, attended.

The archbishop of Canterbury, the most rev. Frederick Temple, D. D., officiated and preached the sermon, after which a Te Deum was sung.

During the afternoon the queen planted an oak sapling on the east lawn of Windsor castle. She drove along beneath drive to the spot, and was assisted in the planting by the Duke of Saxe-Coburg and Gotha. All the members of the royal family witnessed the ceremony. Her majesty then continued her drive in the direction of Logmore.

President Congratulates the Queen.
Washington, May 24.—President McKinley is addressed the following message on the anniversary of her birthday: "To Her Majesty, the Queen, Windsor Castle, England: Madame.—It gives me great pleasure to convey on this anniversary the expression of the sentiments of regard and affection which the American people cherish towards your majesty, and to add the assurance of my own cordial respect and esteem. May God grant to your majesty and to the countries under your government many years of happiness and prosperity."

Greenwich, Conn., May 24.—S. Jackson Close, the postmaster of Stanwich, who was attacked and robbed by burglars Monday night, died without recovering consciousness. Four men are under arrest charged with murder.

HEALTH OF HUMAN FAMILY.

The Opening of the Tuberculosis Congress at Berlin.

Berlin, May 24.—The tuberculosis congress has opened in the reichstag building with 2,000 members present, of whom 200 were delegates from German and foreign governments.

The empress of Germany, as patroness of the congress, was seated in the royal gallery. Her majesty wore a bright spring costume of yellow silk and carried a large bouquet of red roses.

The minister of the interior, Count Posadowski-Wehner, who delivered the inaugural address, mentioned the fact that the holding of tuberculosis congress was simultaneous with the peace conference at The Hague.

He said the two events constitute memorable pages in the history of civilization, enabling posterity to form an idea of the spirit of the present age.

The burgomaster also welcomed those present and addresses were made by Professors Von Leyden and Waldeyer and by foreign representatives.

At the conclusion of the speech-making there were hoots for the empress, who graciously acknowledged them by bowing. At a meeting of the United States delegates Surgeon Boyd was elected chairman.

ARREST OF ROACH.

Noted Crook Captured on the Charge of Robbing a Bank.

Boston, May 24.—John T. Roach of Montreal, alleged by the police to be a professional pickpocket and all-around crook, has been arrested here on the charge of being implicated in the robbery of the Dominion bank, Napanee, Ont., Aug. 28, 1897, when \$32,000 in cash and notes were taken.

Roach is fifth and last on the list of suspected Napanee robbers. W. H. Holden and G. E. Pare, two other members of the gang, who were caught in New England last year, escaped from the jail at Napanee three weeks ago.

Among the president's callers were Representative Cannon of Illinois, Senator Cul-lett of Illinois and Representative Gillett of Massachusetts.

Washington, May 24.—The naval orders posted assign Captain J. B. Coghlan as commandant of the Puget Sound naval station June 30, by which time the Raleigh will be out of commission. The remaining officers of the Raleigh are also detached and placed in waiting orders or leave. Captain Coghlan relieves as commandant Captain J. G. Green.

Sunday Games Barred.

Indianapolis, May 24.—The decision of the supreme court rendered, holding valid the law prohibiting Sunday baseball, was certified down. This means that there will be no more Sunday games in Indianapolis. If an attempt is made to play any citizen or any officer of the law may prosecute the players under the law.

South Reply to Church North.

Minneapolis, May 24.—The elders of the Presbyterian church south, sitting in assembly at Richmond, replied as follows to the telegram sent them by the elders of the church north: "Replying to your salutation, we greet you as members of one body in Christ. Read Acts xx, 32, and Ephesians iii, 14 to 21. May God bless you always."

Judge Grosscup Is Better.

Ashland, O., May 24.—United States Judge P. S. Grosscup of Chicago, who has been ill with fever for the past five weeks, the last three of which he has been especially serious, at his father's home here, is now announced by his physicians to be safely over the great part of his troubles.

Washington, May 24.—Adjutant General Corbin has prepared this statement of the number of deaths which occurred in the army since the beginning of the war with Spain: In Cuba, 1,399; in Porto Rico, 287; at Honolulu, 45; in the Philippines, 606; in the United States, 3,872; total, 6,209.

INFLUX OF JAPANESE.

Thousands of Orientals Landed at Hawaii During the Year.

NO POLITICAL ADVANTAGE.

Members of Legation at Washington Claim That as Immigrants Have No Vote They Will Exert No Influence.

Washington, May 24.—The rapid increase of Japan immigration into Hawaii has attracted the serious attention of the authorities here of late, and several official inquiries have been set on foot to learn the extent of the invasion and how it can be checked.

The reports received by the immigration authorities are in line with the press dispatches, stating that the influx is steadily increasing. One official report from a United States inspector stationed at Honolulu states that 12,000 Japanese have arrived since the islands were annexed to the United States. He also reports that in his opinion the total population of Asiatics by the end of the present year will exceed the total population of all other nationalities.

Among official reports comes one from an inspector stationed on the Pacific coast, who was sent on a special mission to investigate the causes of this influx. He visited Japan as well as Hawaii, and the facts he obtained are expected to shed much light on the causes leading up to the recent heavy arrivals of Asiatics.

The inspector at Honolulu states that one of the effects of the heavy increase of Japanese is to bring on race conflicts between the Chinese and Japanese, the former being gradually outnumbered as the dominant Asiatic force in Hawaii. In a recent clash, it is stated by the report, several Chinese were killed and a number wounded.

At the Japanese legation, it is said, the coming of Japanese to Hawaii presents no new serious question. An official of the legation said:

"Japanese labor is almost essential in operating the large plantations in Hawaii, and it is naturally in much demand; but this is a condition inherent to Hawaii, and the Japanese government and Japanese people can not control it. Our government in no way assists or encourages immigration to Hawaii. There are immigration brokers and companies which carry on a flourishing business, but these have no government status. The only action of the government in the matter is to license brokers, in order to insure the protection of the immigrants against imposition."

"Some of the Japanese have urged the population of Japan was so dense that there ought to be some outlet. But the government has never taken up that idea, and there is no official system of deporting Japanese."

"Since the islands were annexed to the United States Hawaiian affairs affecting Japan come under the legation here. But we have had no recent reports showing an alarming increase in the immigration. On the contrary we are inclined to believe it will fall off by the expiration of the 3-year term which the immigrants spend abroad."

"At any rate an influx of Japanese can have no political significance whatever. They have no vote, so that their influence is not exerted in shaping the affairs of the islands."

Advised Not to Sell.

Havana, May 24.—The Sanguillys, Lacret, Vidal, Mayia, Rodriguez and the late members of the Cuban military assembly, aided by the newspapers, are advising the Cuban soldiers not to give up their arms—"not to sell the souvenirs of their heroic struggle for liberty," and "not to part with their honor for \$75." It is pointed out that even Gomez, in his proclamation, counseled the soldiers to go home with or without money. General Brooke, of course, will proceed with his program without heeding the opposition.

Cleveland Leaves For Home.

Sandusky, O., May 24.—Ex-President Cleveland and Captain Robley Evans, who, with a party of friends, have been fishing in the vicinity of Middle Bass island for the past two weeks, arrived here on the steamer Leroy Brooke. Later they departed for the east over the Baltimore and Ohio road. Both expressed themselves as having greatly enjoyed their outing. Mr. Cleveland said the fishing around the islands is unusually good.

Paris Passengers Depart.

Southampton, May 24.—The North German Lloyd steamer Kaiser Wilhelm der Grosse, which left here for New York, carries 49 spoon passengers of the American line steamer Paris, wrecked off Lowlands Point, near Coverack, Cornwall, last Sunday.

DEMOCRATIC SLOGAN.

Conference of National Committeemen at St. Louis May Decided.

St. Louis, May 24.—Whether the Democratic cry in the coming presidential campaign is to be "anti-trust" and "anti-imperialism," or the old slogan of "15 to 1," will in all probability be largely determined at the conference, which is to be held at the Planters' hotel.

At the same time it is definitely stated by all the committeemen, who have so far put in any appearance that any recommendations which may come from the conference can have no binding force upon the party at large, nor can they in any manner be construed as the official utterances of the Democratic party. The meeting, they assert, is not a regular gathering of the national committee, and it has no power other than to announce the opinions of those who attend it. The entire affair is, however, assuming an anti-trust aspect, and so far there have been no voices lifted in behalf of silver. The subject of silver is moreover carefully omitted from the lists of the toasts at the dinner, which is pronounced an anti-trust affair, pure and simple.

The fight between the Altgeld and Harrison factions of Illinois is the uppermost thing. The Harrison men are by far more numerous than the Altgeld partisans, are working hard, and they will make a savage effort to have Altgeld forced from the advisory committee of the national committee.

Mr. Bryan will not arrive before Thursday. Ex-Governor Altgeld and O. H. P. Belmont are expected at the same time.

Sent to Ambassador White.

Cincinnati, May 24.—The Chamber of Commerce of Cincinnati has ordered the following, adopted by the chamber, to be transmitted to Ambassador Andrew D. White, at The Hague conference: "Resolved, That whatever effort may be deemed wise or practicable in the direction of limitation or lessening of armament for warfare, it is deemed of highest importance that consideration should be given by the peace congress to the principles of mediation and arbitration, as the effective means for avoidance of the evils of warfare and as a promotive of any plan for lessening the extent of armament."

Safe Arrival at Air.

Tripoli, May 24.—A messenger has arrived here from the Foreau-Lamy mission, which was supposed to have been massacred by Arabs, reporting its arrival at Air, in the Sahara, where the mission fortified itself and repulsed an attack of the surrounding tribesmen, of whom 10 were killed, without any loss on the French side. The rear guard of the mission, numbering 50 men, is, however, reported to have been attacked and to have suffered severe losses.

One Victim Dead.

Kansas City, May 24.—Mrs. Anna Meek, 36, of Turner, Kan., who was shot on Sunday by Levi Moore, a city market clerk, died of her injuries. Mrs. Jennie Campbell and Mrs. Ella Landis, Moore's other two victims, are believed to be dying. Mrs. Campbell had deserted Moore for another man and he shot her. Mrs. Meek and Mrs. Landis tried to protect Mrs. Campbell, which prompted Moore to shoot them also. Moore has a family in Anniston, Ala. He is in jail.

Ta Quash the Indictments.

Philadelphia, May 24.—In the United States district court counsel for Ellery P. Ingham, former United States district attorney, and Harvey K. Newitt, who was Ingham's assistant, moved to quash the three indictments charging the defendants with conspiracy, bribery and aiding and abetting in connection with the Jacobs and Kennig and Taylor-Bredel revenue cigar stamps counterfeiting.

Tragic Story of Scroggins.

Greenville, Ky., May 24.—A man named Scroggins has surrendered himself for killing Riley Bethel at Hillside, three miles from here. His story is that both were paying attention to the same young woman, and meeting at night, near her home, a quarrel ensued, resulting in a clinching fight. Bethel cut Scroggins severely, and the latter shot Bethel dead.

Refused to Treat With Miners.

Pittsburg, Kan., May 24.—At a meeting before the executive committee of United Mine Workers and coal operators four of the largest companies in the district refused to treat with the committee. Several hundred colored miners are said to be en route here to work in the mines and serious trouble is feared.

Belville, N. J., May 24.—Joe Till, a prosperous farmer residing near Long Bridge, Warren county, shot his wife in the head, inflicting a wound that may result in her death. He then blew out his own brains with a shot from his revolver. Till was insane.

COUNTRY RE-OCCUPIED

By the Insurgents, Who Attack General Lawton's Rear Guard.

A NEWSPAPER SUPPRESSED.

Owing to the Seditious Editorials Appearing in the Oceans, Said to Be a Spanish Publication, the Officials Seize It.

Manilla, May 24.—Two companies of the Third infantry and two companies of the Twenty-second infantry, forming General Lawton's rear guard, returned from San Miguel to Balling, escorting a signal party, which was picking up wire laid with General Lawton's expedition, found that the insurgents had re-occupied the country, and hard fighting followed from daylight until the Americans camped at night.

But the troops completed their work, though harassed by the enemy. One American was killed and 14 were wounded. The troops captured 20 prisoners and 30 rifles.

It developed that five men, instead of one, were drowned by the sinking of a raft, loaded with soldiers of the Fourteenth regiment, at the Pasig ferry.

Twenty insurgents were killed and 40 were wounded in the engagement with Major Bell, a reconnoitering party, consisting of two companies of the Fourth cavalry, in the vicinity of Santa Arita.

General Lawton, with most of his troops, has arrived at Malolos. His expedition marched 120 miles in 20 days, had 22 fights, captured 28 towns, destroyed 300,000 bushels of rice and only lost six men killed and 31 wounded.

On the other hand, General Lawton estimates that his troops killed 400 insurgents and wounded double that number. The Oregon and Minnesota regiments are returning to Manilla.

The Spanish newspaper, Oceans, has been suppressed for publishing seditious editorials.

The United States commissioners and many American officers celebrated Queen Victoria's birthday on board the British firstclass cruiser Powerful.

ADMIRAL DEWEY

Will Seek Rest at Victoria Peak Near Hongkong.

Hongkong, May 24.—Admiral Dewey, on board the Olympia, said: "The courtesy of the visitors I warmly appreciate, but I am too much worn out and sick to receive them. I am not sorry to leave Manilla at this time. I could not stand the care and responsibility much longer. It is vastly easier some times to be under orders than to issue them."

"It is the responsibility that kills. During the year that has elapsed since we came to Manilla, I have not had one sick day until now. A year is long enough in this climate for an old man, and I am glad to be permitted a rest. On this account I expect to remain in Hongkong two weeks."

"My intention is to spend the time at Victoria Peak, where I hope to be absolutely free from worry."

"Nobody is more sensible of the kindness of the people who have extended me invitations; but I do not wish for entertainment. My health will not stand it at present. Two weeks of perfect quiet at the Peak ought to make a new man of me."

"I have the greatest enthusiasm in the future of the Philippines. I hope to see America's possessions the key to Oriental commerce and civilization."

Insurgents Dispersed.

Manilla, May 24.—Generals MacArthur and Funston, with the Kansas and Montana regiments and the Utah battery, have dispersed 800 insurgents, who were entrenched on the railroad beyond San Fernando, near Santa Arita. The insurgent loss was large, many prisoners were captured, and it is reported that 20 Americans were wounded.

Newport Arrives at Manilla.

Washington, May 24.—The war department has been advised by General Otis of the arrival at Manilla of the Newport, which sailed from San Francisco April 20 with 15 officers and 260 enlisted men, of marines, light battery F. Fourth, and F. Fifth artillery, under command of Major Tiernan, eight officers and 223 enlisted men. No casualties occurred during the trip.

Sunday School Workers Meet.

Philadelphia, May 24.—The celebration of the seventy-fifth anniversary of the American Sunday school union began here. A large number of members from all over the country are in attendance. The celebration was inaugurated by a monster meeting at the Academy of Music. The big building was crowded to the doors with enthusiastic Sunday school workers.

A CITIZEN'S DUTY.

Persons living in a community owe it to that community to do everything in their power to build up its interests, to promote its prosperity, and to encourage its enterprises. This is a duty which no one has a right to neglect. If only from a selfish motive, no man can afford to disregard the best interests of his native or adopted city.

Whatever increases the prosperity of the citizens of a community, increases the material wealth of that community. If your neighbor is prosperous, you will in a greater or less measure share in that prosperity. If the people of a city have honorable employment by which they get an honest living, they are self-respecting and useful citizens. If, on the other hand, they are living in idleness and poverty, the tendency is toward degradation and pauperism.

There are in this fair city of Maysville hundreds of boys and girls who are anxious for employment, who are anxious to learn something which shall make them capable of making an honorable support. They are willing and capable, but we are sorry to say the opportunities are not presented to secure such employment. It rests with the people who have the ability to do so to encourage enterprises which will give employment to those of our citizens who are not now engaged in anything that is profitable.

Thousands of dollars annually are expended by our city government in alms. This is right and proper. It is the part of humanity to take care of those who are not able to take care of themselves and we offer no criticism whatever on the fact that this expenditure is made, but when we give alms to able-bodied men we are oftentimes making paupers of those who would otherwise be useful citizens. Would it not be better then for our city government to provide some means of encouraging manufacturing enterprises, and thus give employment to such persons as are rendered helpless by reason of having no opportunity offered them for earning an honest living?

We appeal to the ministers of this city to take this subject up, and while we are trying to Christianize and bring into the church, let us, also, see that profitable employment is given to such of our citizens as may desire it. While it is a wrong view for any to entertain, yet it is very hard to induce some men and women to come within the doors of the churches unless they are able to dress in a manner that will make them appear respectable, and so it becomes the duty of every Christian to help the boys and girls, men and women, to become useful citizens and honorable church members by affording them the means of gaining an honest livelihood.

He that lives in a community must have a broader view of his duty than that he owes only a duty to his family, his business and to his church. Let us get on a higher plane. Too long we have lagged behind while others pushed ahead. Too long have we had internal discord and differences. Let us live in the future in a more progressive manner. We must all put our shoulders to the wheel with a firm determination to do all that is in our power. The population of Maysville can be increased 50 per cent. in the next ten years, and an era of prosperity inaugurated which will be gratifying to all our citizens.

Let us be more liberal in our ideas, more liberal in our giving, more liberal in our doing, more earnest in our efforts, and more determined in our actions. Then will success crown our efforts and good results be obtained from our earnest endeavors. The majority of the people of Maysville have demonstrated that they are disposed to encourage manufacturing. Let us go to work and secure the best class of manufacturing industries.

A Lively Scramble On Among Kentucky Republicans Over the Gubernatorial Nomination.

[Louisville Dispatch.]

The already disrupted Republicans over Kentucky will be thrown in a yet more distressing state of conflicting interests because of the finally official announcement by Col. Sam Stone that he is a candidate for the Republican nomination for Governor, and does not propose to be jostled off of the track.

An interesting story lies back of the announcement of Col. Stone, who is now credited with the support of such influential Republicans as Collector John W. Yerkes, of Danville, Sam J. Roberts, of Lexington, and strong Federal officeholders in different portions of the State. That fading light, Senator W. J. Deboe, some time ago took up Attorney General Taylor for the race. From Washington he wrote to Stone that Taylor was the administration candidate, and the graceful thing for Stone to do, for sake of party success and harmony, was to quietly get out of the way.

It is but natural that one Republican should suspect another, and Stone wrote several letters to trusted friends in Washington who, after diligent inquiry, gave him every assurance that the administration had no gubernatorial candidate in Kentucky. This was emphasized in a double column editorial in Collector Roberts' paper, the Lexington Leader, who stands very close to the McKinley regime. Learning of this, perhaps, Deboe returned to Frankfort, and, with more or less mild exhortation, sought to have Stone put a curb upon that ambition which the Senator himself had nurtured to the danger point. Stone was obdurate, smarting under what he looked upon as deception akin to betrayal.

Deboe then sought for a compromise candidate in John Marshall, of this city, or State Treasurer George W. Long, but neither of these would be led to the sacrifice. Failing to get Stone from the track or to evolve a compromise man, Deboe renewed his energies on behalf of Taylor as the one with whose aid he could revenge himself upon the recalcitrant Stone.

The beautiful result is that Stone now defies Deboe with even more confidence than Ajax did the lightning, and it is whispered that his backing is such as bodes ill to any Republican opponent.

Governor Bradley is not against Stone, nor is he against Pratt, but is openly hostile to Taylor. The situation is becoming pronouncedly one of a Todd-Hunter-Bradley combine against Taylor and Deboe.

During the fight of George D. Todd on Congressman Evans' re-election the administration took Kentucky affairs from Todd and turned them over to Deboe.

That the administration seems to have absorbed the idea that Deboe was a

strong party leader in this section, but later developments fully warrant the conclusion that the administration has discovered that the Deboe "push" does not come up to the bill of lading, hence there is at Washington a weakening, materially so, in confidence accorded to Deboe, accompanied by an inclination to let Kentucky Republicans scrap it out among themselves.

COURIER-JOURNAL: "The record-breaking case of 'regard' for a dead man's family is reported from Maysville, where a physician, rather than make public the confession of the dead man, allowed an innocent negro to remain in the penitentiary two years, after having already served nine years of an undeserved sentence. Regard for a dead man's family seems sometimes a costly luxury—for somebody else."

BRO. DAVIS, of the Maysville Ledger, thinks there is nothing in the dog and cat story, published in the Bee last week, as happening in Maysville. Our information was taken from the BULLETIN of that city, and it might be possible that some things happen in Maysville that Bro. Davis fails to "get onto." We remember some three or four weeks ago, a lady fell there on Friday and broke her leg. The Bee published a notice of it the following Wednesday, and the Ledger had it fresh the next day, after it received the Bee.—Ripley Bee.

Maysville Negro Charged With Grand Larceny.

[Cincinnati Post.]
Mary Taylor, a 200-pound colored woman from Maysville, was before Judge Pfeiffer Wednesday charged with grand larceny.

Messrs. Dalton and Brown, for her, were offering evidence of good character, but Detective Allen said he beheld Mary in a saloon sitting on a man's lap, hugging and squeezing him.

"We object," cried the attorneys.

"Hugging and squeezing ruled out," announced the court.

That satisfied the attorneys, for they claim the man who was holding Mary was her brother.

Through the Efforts of Maysville's Board of Trade.....

Coupled with the co-operation of liberal-minded people who are not members of that body, various attractions will be offered in a few days in our city that will doubtless bring many visitors from this and adjoining counties. We are promised by the managers of the near-approaching street fair that many novel and interesting features will be presented. "You'll come sure" and when you are here, combine a little business with pleasure. Such bargains as Hechinger at present is offering and selling, rarely are obtained. It goes without saying that the qualities throughout the various lines in Hechinger's are the very best. No cheap Clothing, no cheap Shoes, no cheap Furnishings—only the highest types of merchandise is handled in this store. But at prices that are warranted lower than you pay for inferior goods away from home. HECHINGER'S for many years has been, and is now, the "home" store; ask those who occasionally buy Clothing away from home. They know.

Again we say, we do not quote prices in our "ads." You cannot quote Clothing like other commodities, such as wheat, corn or cattle. Come and see what we have. Examine qualities, learn prices, then look elsewhere; your judgment will lead you aright.

During the Fair,

make our storeroom headquarters. Among other liquids on hand we always have an abundance of ICE WATER. The latter, like our Clothing, you'll find the best in town. We will also take charge of your packages during your stay in town.

THE TIGER TOBACCO TRANSPLANTER.

Makes the farmer absolutely independent of the weather. He sets his plants when he gets his ground ready, rain or shine. The superiority of the Tiger over all other Transplanters has been plainly demonstrated during seasons of severe drouth, when experiment proved it to be the only machine that could be depended upon to give a good stand of plants under any and all weather conditions. With the TIGER the plants are properly set. The roots are in the puddle formed by the water, loose earth being forced down around and above the plant. In effect the water valve on the TIGER stands still at each hill long enough to pour the water precisely where it is wanted—a feature that cannot be duplicated by any machine devised by man. THE TIGER PUTS THE WATER JUST WHERE IT IS NEEDED—AT THE ROOTS. There are many superior points on the TIGER that makes it far ahead of any other Transplanter ever put on the market. We ask your inspection of same and that you place your order at once, as the factory could not supply the demand last season and we, ourselves, were only able to get a portion of our orders filled. So do not delay, but place your order with us at once, that we may be able to supply you before our stock is exhausted. Remember first come first served.

MUST HAVE BEEN TOUGH,

From the Portsmouth Tribune's Description of That Excursion Party—Don't Want any More Such.

(Portsmouth Tribune.)

Sunday the M. P. Wells brought up about two hundred excursionists from Maysville, Vanceburg and Manchester, who attracted considerable attention while here. It was a mixed crowd of all colors, races, sexes and conditions that seemed to have but one point in common, and that was lots of bad whisky. In order to give the crowd a little added dignity a good part of the boys brought their guns along and when interest or excitement would seem to lag a scrap would be forthcoming. The boat would have reached this port sooner but she had to stop several times to put belligerents ashore. A one legged man named Collins was shot in the fleshy part of his leg by a Maysville man and after the other fellow had concluded his target practice, the wounded man took his gun from him and nearly beat him to death.

Many of the girls, white and black, were too full to get up the grade and so had to content themselves on the boat. In lighting a cigarette one of them set her dress on fire and came near being badly burned; as it was she got off home with small bits of her dress hanging to her.

It was the noisiest, roughest crowd seen here for many a day and we hope it will be a long time before such another comes.

Glorious News

Comes from Dr. D. B. Cargile, of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands have proved,—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Only 50 cents. Sold by J. J. Wood & Son, druggists. Guaranteed.

EPWORTH, LEWIS COUNTY.

Rev. Mr. White preached to a large audience Sunday.

Miss Nanilene Tolle, our Epworth milliner, has a splendid trade.

Miss Mary Hord has returned from a trip to Louisville and Mammoth Cave.

Prof. Roland Luman, of Galveston, Texas, is visiting his parents, Mr. and Mrs. Joel Luman, of Fleming Co.

Miss Annie Luman attended the Southern Baptist convention at Louisville and visited relatives at Lexington and Winchester on her way home.

The popular view of the relation of the blood to human character and conduct is marked in many a familiar expression. We speak of there being "bad blood" between people at enmity, of "blue blood" as indicating ancestry, of "black blood" of describing a treacherous nature, and in many another phrase mark our belief that in the mental, moral and physical man, "the blood is the life." The one basis of a healthful, happy and useful life is pure blood. With the blood pure, disease has no permanent lodging place in the system. For this reason the use of Dr. Pierce's Golden Medical Discovery cures the body of diseases which have their origin in impurity of the blood. It absolutely purifies the blood, carrying off the waste and poisonous matter, increasing the action of the blood making glands, and building up the body by supplying the blood in quantity and quality such as is essential to a condition of health. It cures ninety-eight people out of every hundred who give it a fair trial.

STOCK AND FARM.

A Batch of Interesting Items Gleaned From Our Exchanges For the Farmer.
Kill the Cat Worms.

For poultry, bran is valuable because of its nitrogen and carbon; it also contains mineral matters which chickens need and in which many grains are deficient. Therefore, in connection with other food, let the hens have bran.

The demand for pure bred bulls of the beef breeds still continues, and prices for prime stock will doubtless remain good for several years, as the demand is large and the supply limited.

In rearing steers for the production of beef, the quality of the individual animals has much to do with the financial results. Good grade steers have made an average daily gain of 2.3 pounds during the first year of age, when the weight at birth was included. We should be slow to draw conclusions regarding the relative value of the different improved breeds of cattle for making beef, as the food, individuality, etc., of the animals exert so marked an influence. Some animals are more capable of producing beef of higher quality than others. The superiority of beef breeds appears to be largely due to their tendency to mature early, and to produce beef of high quality. Animals without improved blood are not capable of making gains so rapidly as those of good breeding, although fed with the same liberality.

To get a piece of land perfectly free from small brush, a very cheap as well as a perfect way of cleaning it is to pasture sheep upon it for two or three seasons, when all brush small enough for the sheep to reach at the tops will be eaten clean of leaves, and the brush will in a very short time dry off and decay.

A. W. & Z. T. Young and tenants, the Messrs. Foley, of Flat Creek neighborhood, Bath County, sold their crops of tobacco, amounting to 70,000 pounds, to Waller Sharp at 9½ cents.

Progressive Farmer: "Cutworms are hard to catch, as they keep hidden during the day. Usually they do but little damage if the garden is plowed very early in the spring and allowed to freeze and thaw a few times. A good way to kill them is to sprinkle paris green on slices of potatoes and lay these pieces on freshly set out plants."

Paris green kills potato bugs in a very short time. Most people use the mixture too strong. Two ounces to fifty gallons of water is effectual if the mixture is kept constantly stirred.
